## ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-18, 21 and 22 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In the instant case amended claims 1 and 8, the new limitations were not described in the specification in such a way as to reasonably convey to one skilled in the art that applicant had

possession of the claimed invention. The examiner was unable to determine the page and line in the specification where support for the new limitations were. Therefore the new limitations in claims 1 and 8 are considered new matter.

The new matter should be deleted.

#### ***ANSWERS TO APPLICANT'S ARGUMENTS***

6. Applicant's arguments in the response filed July 14, 2005 regarding the previous rejections of record have been considered but are moot due to the new grounds of rejection.
